

## ABOUT US

# Making economic prosperity more accessible to everyone

FSDH Asset Management is a wholly-owned subsidiary of FSDH Holding Company Limited and a leading asset management and financial advisory firm in Nigeria. Initially, we started as the asset management department of FSDH Merchant Bank Limited in 1997, and in 2001 morphed into FSDH Asset Management Limited, a fully-fledged, stand-alone company.

We are a team of experienced fund managers with a breadth of strong-performing products across multiple asset classes, easily accessible to individuals and institutions.

We are registered with the Securities and Exchange Commission as a Portfolio Manager and a Corporate Investment Adviser and are versatile in financial transactions and investment strategies that meet the needs of investors in an emerging economy like Nigeria.

Our strategies are dedicated to preserving investors' wealth while maximizing the value that they receive. We are positioned to build wealth for clients across all economic classes and are the trusted partner in growing your wealth.
